

Action Plan in response to the PPO Report into the death of Mr Milad Fathy on 29 January 2023 at HMP Leeds

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure that staff create care plans to support prisoners under their care, setting out a treatment plan including timescales for review.	Accepted	<p>All staff have received refresher care planning training in December 23. All those that commence treatment should be reviewed within a 4-week window and this should be scheduled at the point of commencement to enable the review to take place in a timely way and amendments to be made if required. The care plan should also be amended at this time to reflect any change in treatment.</p> <p>The primary care matron completes bi-monthly care plan audits to test compliance with this.</p>	Head of Healthcare PPG	January 2024
