2	The Director should ensure that the prison's process for progressing and monitoring ERCG applications is reviewed so that applications are progressed in a timely manner.		Following information from medical staff that a prisoner is in palliative or end of life care the respective Head of Residence must ensure the application for ERCG is completed and the decision clearly documented on the palliative care plan. This will then be reviewed and discussed in weekly Safety Intervention Meeting.	Head of Residence Sodexo	March 2024
