

<b>Person in AP Name</b>	Alexander CORBETT
<b>Approved Premises</b>	Fleming House SEE
<b>Date of Death</b>	23/08/2024
<b>Date of Action Plan</b>	21/03/2025

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date for completion
1	The Governor of HMP Elmley should review procedures for ordering monitoring tags for prisoners awaiting release, identify whether the error with Mr Corbett's licence is a systemic issue and implement any necessary changes to mitigate this.	Accepted	We currently conduct rigorous checks with all sentence calculations. As with any purely human process there is an element of possible error. These are picked up by the Band 5 when they do their checks. On this occasion it was missed. It is not a systemic problem. The recent addition of the DPC Calculation system still requires human calculations and the Band 5 checks.	HMP Elmley	ongoing
2	The PS should ensure that AP staff conduct daily alcohol tests for residents awaiting alcohol tags to be fitted.	Accepted	Locally this has been actioned. The Probation Service will develop national guidance for all Approved Premises in relation to the need for daily alcohol testing whilst waiting for AM tags to be fitted.	Probation Service	31/05/2025
3	The PS should ensure that AP staff are aware of their responsibilities regarding managing tagging requirements and that a clear process is in place for staff to escalate tag fitting.	Accepted	Locally this has been actioned. The Probation Service will develop a national AP Instruction setting out the expectations of AP staff to escalate concerns when tags are not fitted.	Probation Service	31/05/2025
4	The AP Area Manager should ensure that all staff at Fleming House AP are clear in respect of the death in AP process, as set out on EQuIP.	Accepted	Action has been taken, and the issue is raised in team meetings and will form part of the AP Action Plan to ensure the action is reviewed.	AP Area Manager Fleming House	Completed
