Please provide as much detail as possible below, including:
 Before the incident (i.e. what led to the incident, any de-escalation techniques used),
 during the incident (i.e. what types of force were employed and why), and after the incident
 (i.e. where the detainee(s) were relocated to and any injuries sustained).

I Duty Director now referred to as DD Dan Haughton have worked for G4S at Brook House Immigration Removal Centre now referred to as IRC, Perimeter Road South, Gatwick Airport, RH6 OPQ for eight years and five months. Brook House holds up to five hundred and eight adult male detainees prior to their removal from the United Kingdom or whilst their Immigration cases are resolved. On Saturday 13th May 2017 I was the DD at Gatwick IRCs.

This was my second day on as DD out of three. Whist DD I am on call 24 hours a day. I received a shift handover Detainee Custody Managers now referred to as DCMs Nick London (Oscar 1) and Steve Dix (Oscar 2) who had completed the night shift. I then discussed the day with the DCMs who were on shift today. Amongst other things discussed was the transfer of detainee **D687** CID ref 7549784 who was due to transfer to The Verne IRC at some point during the day. The transfer was being completed by Tascor In Country Escorts who had assigned a suitable crew. A suitable crew is normally assigned to detainees who have previous disrupted a transfer or have previously refused to leave the centre. The suitable crew consists of enough officers to facilitate a transfer under restraint should be it necessary.

There were concerns that **D687** would not comply with his transfer as he had previously refused so at around 12.20 the unlock of Arun was held to ensure that **D687** could be collected from the wing and presented to Tascor Officers in discharge. The wing would normally unlock at 12.30 for lunch. **D687** packed his belongings and compliantly walked to the discharge waiting room to await collection and the wing returned to normal regime.

At around 13.45 I was in the security office and I received a telephone call from DCM Chris Donnelly who informed me that **D687** was now refusing to leave the centre and that had tied something to the disabled handrail in the toilet of the waiting room and around his neck.

I made my way to the waiting room which is down three flights of stairs and through four secure doors. When I arrived I did not enter the toilet area but stood by the door to assess the situation for myself. I saw that **D687** was in the toilet area which is around 10 feet long and 5 feet
