

JOSHUA: You're the lord.

CALLUM TULLEY: So, on two occasions now, I've filmed -- sorry. What the fuck is his name?

MALE SPEAKER 1: Calvin.

CALLUM TULLEY: On two occasions now, I've filmed Calvin talking about assaulting this Egyptian detainee. It's just occurred to me that I was there on that day, filming him, when he says he was in the room sat on the desk with this detainee. It was at that time, it was on that day, that he smashed his head against the table. I had no idea what was going on in that room. To me it was just an officer inside the room with someone who was on constant supervision, perhaps offering some advice or support. But, as we've heard, Calvin was smashing his head on a table.

MALE SPEAKER 1: While twisting his hand.

CALLUM TULLEY: Yeah.

JOSHUA: Would you mind just telling me again?

CALLUM TULLEY: What, just literally saying those words?

MALE SPEAKER 1: The point he made in previous video diaries and I know from your notes, so it's not wanting to put words in your mouth.
