

To Concern.

Dear Sir Madam,

IMMIGRATION REF: B1262471/2

My name is **D643**, nationality St Vincent and the Grenadines, D.O.B **DPA**
DPA **Sensitive/Irrelevant**

I will like to make a formal complaint on two Doctors at Brook House Immigration Removal Centre. **Dr Choudary** and **Dr Azhar Ali**

I have been detained at Brook House IRC for over 18 months now. I sustain numerous injuries as a result of my 12 years service with the British Army. I was medically discharge from the HM Forces because of those injuries. These injuries are **Sensitive/Irrelevant** and Post Traumatic Stress Disorder (PTSD)

I have two rules 35 done and deem me as an adult at risk. Having been lock up for 18 months with a lot of elements that triggers my PTSD condition is causing me a great deal of distress.

I therefore made all efforts to help my self dealing with my PTSD condition, this in clouds self help, Therapy, and asking for help from the medical staff here at Brook House IRC.

On the second week of January 2018, I went to the health centre to see the medical staff to let them know that I felt law and stress out, as I was getting suicidal thoughts and would like to speak to some one for help. I took with me three of my psychiatrist's reports, as I wanted the staff know more about my PTSD condition and what was affecting me in detention. They took me to see a Dr Choudary. I tried to talk him about how I was feeling at the time and asking for help. But Dr Choudary wasn't listening to me, instead he was asking me about my immigration case and tell me to report to my problem to my case worker as he can't do anything about my problem. He took the reports from me with my consent, he scan the reports and add them to my medical record. I felt that Dr Choudary did not deal with my case correctly; instead, he concentrated more on my immigration case, which were irrelevant at the time. Dr Choudary told me he was going to report his concern at a staff meeting about the length of my detention and he would get back to me in a week. One month had past and he did not get back to me. However, when I went to see him he refused to see me, he give me no information at all. I felt Dr Choudary had no interest in my medical condition and my complaints; he made me feel useless and unwanted. I left the medical centre more stress out that when I went in. The fact that he did not listen to my complaint it made me never want to go back to him again.

In February 2018 I went to see **Dr Azhar Ali** for a rule 35 assessment as my two previous rule 35 assessments I had was over one year old. My circumstances have changed and I had new independent evidence to support my claim. When I arrived in Dr Ali's office he asked me if I have been torture because that is the reason people usually do rule 35. I try to explained to him that I am an adult at risk and my circumstances has changed from the last time I had my 2 rule 35 done. I also had these independent evidence with me. But Dr Ali refused to listen to what I have to say and started to be very aggressive with me, by then I was very upset, stress out and emotional. Dr Ali

refuses to take my evidence. Again, he concentrates on my immigration case instead of what I was saying to him. He refuse to give me the assessment and ask me to leave his office because he did not have time to waste on my. He said is not getting any way with me, it was if I was in a difficult negotiation and the other party was making it extremely difficult for me. It made me come to a conclusion never to go back to the medical centre again as it making me feel more worst coming out that going in,
