STATEMENT

STATEMENT

Statement of: Chrissie Williams

Occupation: Clinical Lead

Statement for: **D2054** who was removed on 28/6/17.

I was aware that he had self harmed earlier in the day by cutting the top of his right arm it had been attended to by the nurses in healthcare they cleaned it and applied ster- strips to one of the cuts the other two were superficial and they were cleaned and a dressing was applied to the top of the arm which covered all the cuts.

When I went to the room to where he was pre going on to his flight the team were waiting outside I was only able to view the arm from the window the dressing appeared to be intact I was not aware of any blood on his arm.

After the team had gone in to the room to remove **D2054** for his flight I checked from the door way to ensure he was ok I do not recall **D2054** banging his head or lose consciousness I do remember him shouting shouting a lot but do not recall him saying his head hurt. the team applied hand cuffs and he was stood up I checked him over e he did not appear to have any apparent injuries at that time, his arm still had his dressing intact and I did not see his wound on his arm and there was no bleeding on the dressing,

He then walked with officers to reception In reception I checked him again I do not recall any blood from the wound or any other injuries.

Regarding his diet he did attend healthcare stating he could not eat the food from the servery he did not have any allergies but did not like the food and requested a special diet one of the nurse sat down with **D2054** and went through the menu with him he insisted all he could eat was boiled potatoes

A request was sent to the kitchen we did not get any feed back from the wing Stating he had not eaten any servery food or was not eating
