History: Saw: **D1713** following urgent referral/ request made by doctor. Waited on C wing until **D1713** was out of the shower.

Was pleasant and appropriate on approach, said he has been feeling depressed since he was detained yesterday. States that he was living in **DPA** before he was taken to Brook House. Claimed that an argument developed at his home after the other tenants failed to keep the place clean/tidy. Police was called and he was arrested and taken to a police station where he was later picked up and taken to this centre.

Said he has committed any crime and does not know why he was detained further claims that he was born in Italy and by Nigerian Parent and was naturalised there. Said this can be confirmed by his solicitor who has his birth certificate. Very distressed, as he complains about the effect being in detention is having on his and the possibility of him being deported to Nigeria.

D1713 said he was physically abused by his uncle whom he went to live with as a child after the death of his father. Said was beaten and burnt. Showed several marks on his hands, the back of his neck and his feet to confirm this. Claims that he is having flashbacks of these experiences and that of his mother who was stripped naked by his uncle once, said this hurts. went on to say his story is complicated and he does not want to go to Nigeria.

Says he can never see his children grow up in Nigeria if he was to get any in the future, adding to this **D1713** said being in Brook House makes him feel like he is a dog and this is not the place for him to be. Said his partner is sectioned and being treated for depression.

Tearful and at times place his hands over his face and draw his beard, "said please god, don't let me do something stupid". "I don't want to harm myself". Did reports that he had not eaten since he arrived at Brook House, However he did have lunch after he was seen. Was supported and encourage to ventilate during the time he was seen

Was later seen with S. Dix and was placed on an ACDT with hourly observation, There was no current suicidal thought or self harm ideation reported. Said he has send a letter to immigration stating that he would like to make an asylum claim. Went to collect his meal after he appears to have calmed down. Advised to seek help whenever he has any concern.
