Were any additional restraints used?		NO	Who authorised their use?		
Hand Cuffs		NO			
Baton		NO			

Please provide as much detail as possible below, including:

Before the incident (i.e. what led to the incident, any de-escalation techniques used), during the incident (i.e. what types of force were employed and why), and after the incident (i.e. where the detainee(s) were relocated to and any injuries sustained).

I (DCM) Detainee custody Manager, Michael Yates employed by G4S care and justice services at Brook House immigration centre, am in ticket and fully trained in C+R and first aid. I have held this position since April 2017.

On Thursday 3<sup>rd</sup> August 2017 at around 13:40 a first response call was broadcast over the radio for a medical response to Arun Wing. On arrival it was clear that a Detainee by the name of [D1747] had made cuts to his throat and was quite upset. Myself and DCM Steve Webb spoke to [D1747] to calm him down and allow Healthcare take a look at the cuts. While doing this I noticed a crowd of detainees gathering so asked DCO A. Albert and DCO B. Grimes to disperse of the gathering of detainees. While attending to [D1747] I heard raised voices over by the gathering of detainees and heard a detainee by the name of [D642] say to DCO B. Grimes something along the lines of “Fuck off or I will slap you in the face” as I approached the situation to defuse it DCO A. Albert asked [D642] to return to his room. It was at that point [D642] then returned to his room and came back out with a bottle of water that he then emptied in DCO A. Alberts face. At this point I then took hold of [D642] left arm in a guiding hold and tried walking him down to the other side of the wing. I chose to walk [D642] to the other side of the wing because [D1747] was still being attended to by Healthcare and had become very animated. While in guiding hold with [D642] I asked him around three times to walk with me to which he replied with “What the fuck you going to do you cunt suck your mum” He then began to struggle to get free and it was at this point I believe DCO J. May took hold of [D642] Right arm and I moved from guiding hold to Wrist Flexion [D642] was wet from

the previous altercation and was hard to keep hold of so I told him repeatedly to stop struggling. When we arrived at the door at the end of the wing [D642] dropped all of his weight and started to struggle again. DCM S. Webb then came in and took control of [D642] head. As we got through the door to the association area [D642] then pushed forward to the far wall. I then realised [D642] head was free and at that moment I took control of his head and DCM S. Webb took control of [D642] right arm. I was communicating with Mr [D642] and asking him to stop struggling and to calm down. [D642] said that he couldn't breathe and with his back against the wall lowered himself to the floor. It was at this point all holds were released and mediation was used on [D642] to walk with us compliantly down to CSU. [D642] then entered CSU without any further incident.

I believe that the force used was proportionate to the seriousness of the situation.

This concludes my report.

Please provide as much detail as possible below, including:

Before the incident (i.e. what led to the incident, any de-escalation techniques used), during the incident (i.e. what types of force were employed and why), and after the incident (i.e. where the detainee(s) were relocated to and any injuries sustained).

I (DCO) Detainee custody officer, Jack May employed by G4S care and justice services at Brook House immigration centre, am in ticket and fully trained in C+R and first aid.

On the 03/08/2017 I received a first response to Awing at approximately 13:40pm, I was on my break at the time, so I rushed in and got to A wing as soon as I could. I arrived at A wing and a detainee was on the first floor with healthcare and had some blood on his neck and healthcare were seeing him. Micheal Yates then told me to move people away from the area so I started moving people away. DCO (detainee custody officer) Anasia was having a conversation with detainee [D642] and the conversation started getting a little heated, so I stepped in and told Anasia to step away so the detainee would maybe calm down. Detainee [D642] then walked into a room and then came back out the room with a bottle of water and chucked water over my self a detainee custody officer Anasia, I grabbed the bottle out of his hand and water went everywhere, Micheal Yates was next to me and then detainee [D642] was against the railings with Micheal Yates arms either side of him holding the railings. Detainee [D642] then moved away from Micheal Yates in a very aggressive manner, I then got hold of [D642] right arm and held his arm in a guiding hold then Micheal held the other one, detainee [D642] then started to swing his arms around so I think locked detainee [D642] right arm into my stomach with hold of his index finger and thumb and Micheal had hold of either arm walking towards the pool table at the other end of the wing, [D642] then kept on moving around quickly and he got free due to his arms being wet from the water that he chucked over DCO Anasia working on A Wing.

We held Detainee [D642] against the wall and then got control over him then DCM Stephan Webb got control over his head and we took him through the door in a controlled manner and then detainee turned around and said he could not breathe at all

So we have all let go of him, then I said to detainee [D642] take slow breaths and sit up and he turned around to me and said 'go away blud'. I then walked into A wing to support other officers as I didn't want detainee [D642] to get more aggressive due to the fact myself had used reasonable force on him, no more force then necessary was used.

This concludes my report

Before the incident (i.e. what led to the incident, any de-escalation techniques used), during the incident (i.e. what types of force were employed and why), and after the incident (i.e. where the detainee(s) were relocated to and any injuries sustained).

I Steve Webb Have been a DCO for 6 years and have been a DCM for 9 months. I have been working at Brook House for 11 months as a Residential Manager in charge of Arun and Eden wings. I was in the residential office when there was a call on the radio for a medical response on Arun wing. I left the office and walked on to the wing. Officers were at the far end of the wing where 1 detainee had made cuts to his neck, while we were dealing with this detainee, wing officers were keeping back other detainees that had gathered around to see what had happened. One of the detainees that had come to have a look was detainee [D642], he was asked to move back and I heard a few exchanges of words and [D642] said that he would slap the officer, I then went across to talk with detainee [D642], he then moved into a room and I moved back to the other detainee that had made cuts to his neck, then I heard a shout and looked over and there was scuffle and officers were holding detainee [D642] who had thrown hot water over a officer, I then instructed the officers to remove detainee [D642] off of the wing and take him to the CSU. [D642] was putting up a fight and was struggling against the officers, other detainee were then shouting and getting involved. Once detainee [D642] had been moved towards the first floor door he again started fighting and where he was wet officers were struggling to take hold of and restrain [D642] both of detainees [D642] arms were being held so [D642] then started to kick his legs around and his legs then became weapons and were endangering the officers. Seeing detainees [D642] kicking out with his legs I decided to take control of his head this would eliminate the legs. It was necessary and reasonable because the legs had become weapons. Once detainee [D642] was off the wing he carried on struggling and then due to [D642] being wet and slippery he was pinned against the wall and he slipped out of the hold, I then took hold of a arm and put [D642] into a straight arm lock which is an approved technique with in control and restraint, he then look out of breath and he stopped struggling the decision was to let [D642] go and release holds, there were enough officers to deal with [D642] in the corridor, so I then went back to deal with the unrest that was on Arun wing. The use of force was reasonable, necessary and proportionate to the seriousness of the circumstances. this end my report S Webb

Version 02

OFFICIAL - SENSITIVE

Section 3 Healthcare's report (To be completed by medical staff)

Time and date of examination: 03/08/17 approximately ± 14:00

Report: While we were dealing with another first response I noted that there was an altercation between members of staff. Detainee was moved to the passage but was still arguing with officers. When I went to see him in CS4 he declined to be seen and stated that he was assaulted and wants to see IMB. But declined to check if there was any injuries
