

Section 4: Detainee's account

Prison number
10596334

Please provide details of the account given to you by the detainee of the alleged torture. In particular, please provide:

- as much detail as possible about the detainee's explanation for the cause of each injury, scar or symptom (physical or psychological).
- details of when, where, how, over what timeframe and why the torture is said to have happened, if possible.

He was attacked in 2007-2009 on many occasions in [DPA] Morocco. He was attacked by many people including his own family who found out he is [Sensitive/irrelevant]. He was cut with [Sensitive/irrelevant].	
[Sensitive/irrelevant]	
He never went to a main hospital but self-referred to local clinics for treatment.	
He did not go to the police.	
He decided to flee Morocco in 2011-12 – in fear of his life.

Section 5: Relevant clinical observations and findings**Prison number**

10596334

Please provide details of your objective clinical observations and findings. This should include:

- details of all scarring or other physical marks, psychological symptoms, physical disability or impairment.
- details of any medical or professional treatment/support that the detainee has received (including outside the UK) or is receiving and from whom.
- any information in respect of previous or current physical or mental health problems which may be a result of having been tortured.

Incision scars on forearms and lower back

- Laceration scars on top of head and forehead

- Section 6: Assessment

Prison number
10596334

Please set out your reasoned assessment of why, on the basis of the detainee's account together with your own examination and clinical findings, you are concerned that the detainee may have been a victim of torture. This should include your assessment of:

- the consistency of any physical (eg scars) and/or psychological findings with the detainee's allegations, including any evidence to the contrary
- whether there might be other plausible causes for the findings
- the impact detention is having on the detainee and why, including the likely impact of ongoing detention

If there are no physical or psychological findings to support the detainee's account, you must state why, in your professional assessment, you nevertheless have objective grounds for your concern.

On examination he has scars which may be due to the history given
