D2953 came into the library and asked to speak with the manager of Brook House because he said he had been bitten 3 times by staff and wanted to claim compensation for it. I tried explaining that he needed to speak with the wing manager but he wasn't happy about that and wouldn't leave the library. I walked back to E wing with him and as I was explaining to the wing officers he stood at the door staring at me making me very uncomfortable, when told to stop it and go away he walked backed to his room very annoyed. SIR submitted.

During the night **D2953** repeatedly called the office using the intercom saying that he wanted his medication; even though healthcare had told him in person that as he hadn't come to collect it during the correct time he would have to wait until the morning.

He then started repeatedly calling down requesting sandwiches and coffee. I went to his room a number of times to tell him to stop calling and noticed he had covered up his viewing panel.

He is also given calls to his solicitor and shelter that helps him. He also call the US embassy saying he is a citizen and he wants to go there. He is extremely rude and aggressive, always shouting and demanding.
