1. Executive Summary

Brook House is an immigration removal centre located near Gatwick airport. Under contract from the Home Office, G4S has operated Brook House since it opened in March 2009 as a purpose-built immigration removal centre with a prison design. Holding only adult male detainees, it has just over 500 available places. Since 2012, G4S has also provided the Healthcare at the centre – but through a separate contract with NHS England.

On the 24th August 2017 G4S was informed that BBC Panorama was preparing a report about conditions inside Brook House. Panorama told G4S that the report would contain undercover film showing officers neglecting or abusing detainees and misreporting incidents.

G4S immediately commenced an investigation into the allegations, reported them to the police and local authority, and suspended nine staff pending further investigation. We also put together a Project Team to develop this Action Plan – reporting directly to Managing Director of Custodial & Detention Services, Jerry Petherick. In addition, we are in the process of commissioning a wider independent review.

This Action Plan identifies our plans to ensure the safety and dignity of detainees. It will be updated as we learn more from the investigations and the independent review.

1.1 Key objectives

Our Plan will deliver key improvements by December 31st in 6 key areas:

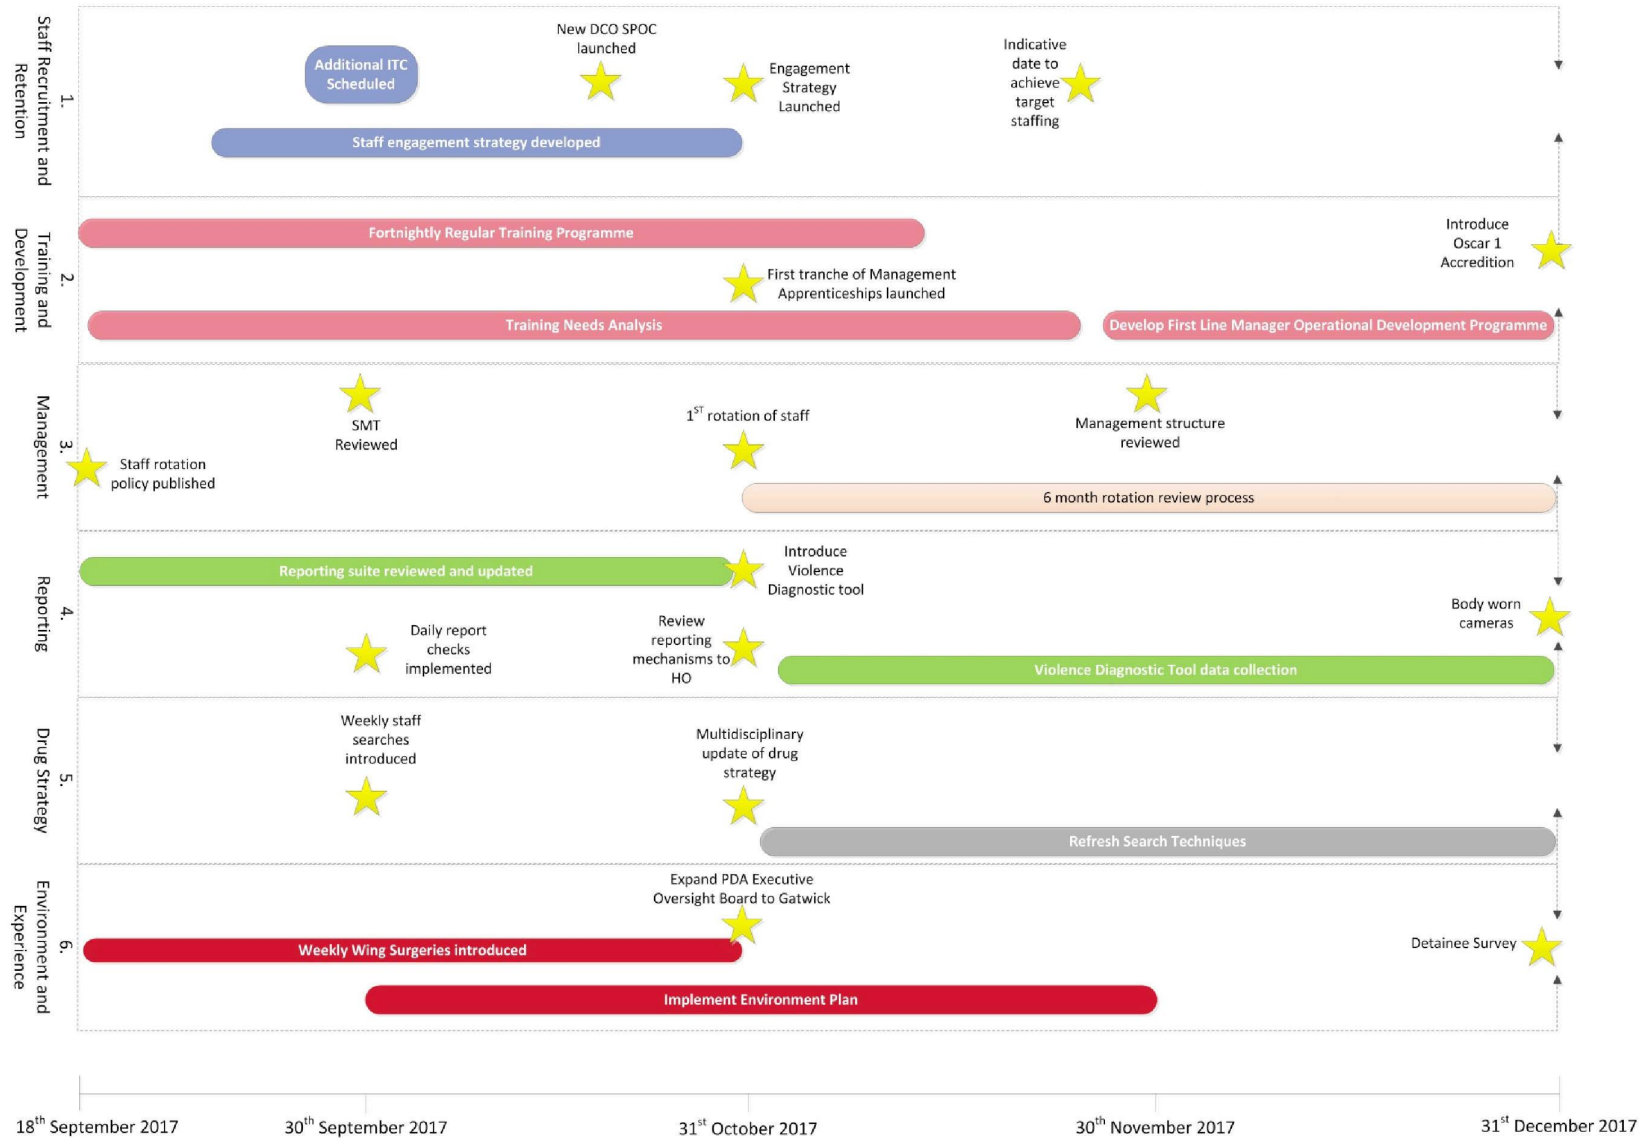

- **Staff Recruitment and Retention** – ensuring we have sufficient staff to manage the centre.
- **Training and Development** – ensuring staff have the skills to deliver a consistent level of service to detainees.
- **Management Structure** - ensuring our management team has the right structure and responsibilities.
- **Reporting and Governance** – ensuring that our reporting suite and governance is sufficiently robust.
- **Drug Strategy** – ensuring that we reduce supply and effectively support detainees with substances misuse issues.
- **Detainee Experience and Environment** - ensuring that activities and facilities at the centre preserve and promote the mental and physical wellbeing of detainees.

The diagram on page 3 shows the key milestones against these areas.
