Summary of review (if ACDT plan is closed, state why)

Mr **D1527** stated he harmed himself as he had been placed on Eden Wing and wanted to return to his room as this would stop him doing it. We explored the fact he was on Eden wing because he was in a room with his friends and harmed himself. Mr **D1527** is not eating and says he will harm himself if he doesn't go back to a room, he also said he won't eat unless he goes back to his room. His room is no longer available. He made no eye contact throughout and appeared manipulative in his responses. He spoke minimally but seemed to only respond when he wanted something and made threats when he was informed as to the reasons why he was on the document and why he was on Eden wing. He has a solicitor and has claimed asylum, he would not discuss his triggers. All agreed remain on same level of obs based on his responses and his demeanour throughout the review.

Next Review: 26th April 2017. All agreed remain Constant Supervision
 CAREMAP update YES No, as no new actions ☒
