## Summary of review (if ACDT plan is closed, state why)

Today at approximately 15.10 D1527 came into the activities office for his review. D1527 eye contact was good, he engaged in a conversation and he acknowledged what we were saying. D1527 said that he's sleeping very well therefore; he would like to see the doctor to see if he can increase his medication to a stronger doses. I asked D1527 if he was eating and drinking, D1527 replied that he wasn't eating well because he did not feel hungry but that he was eating from the shop when he felt like it. D1527 said that he was drinking as I explained to him the damage he could cause to his body if he did not drink enough fluids. D1527 said that he's happy with his solicitor and he was preparing to make an application for bail. I asked D1527 if he was happy in C Wing and with his room mate he said that he was. D1527 would like to see the nurse to discuss his medication.

Due that D1527 is still in a very low mood his obs and conversations will remain the same until his next review.

CAREMAP update YES ☐ No, as no new actions ☒
