Notes for Healthcare

This assessment must be completed for all detainees being removed from association (DC Rule 40 & 42). The purpose of this assessment is to determine if there are any healthcare reasons against removing a detainee from association, and to provide a snapshot of the detainee's mental health at the time of the assessment. However if there are any immediate physical health concerns these should also be considered. It is not intended to be a comprehensive mental or physical health assessment. It is not intended to predict or anticipate a change in the detainee's condition over time. If you have any concerns about the detainee you are screening seek further guidance from healthcare colleagues or from the on call healthcare manager. A multi-disciplinary case review maybe required.

The assessment should be completed after:

- A discussion with the detainee
- Reference to his clinical record and any other relevant documentation, e.g. incident reports, ACDT if appropriate.
- Gathering information from other members of staff in contact with the detainee.
- Reviewing the nature of the incident which led to removal from association.

The Duty Director will make the final decision on where to locate the detainee.
