\*\*\*\*\* Pre-Departure Pilot INDUCTION\*\*\*\*\*

Detainee has been seen today.  
He has been served with IS151F and Rule 35 response.  
COC has been faxed to the caseworker.

Detainee has stated that he will not return to Somalia. He will only go back to Somalia in a body bag. He was staying strong for his mum as he lost his brother few months ago. He can't take it anymore as he is mentally stressed being in detention so long. He has started to write a suicide note. He is going to give it a week and if things stay the same he will do something.  
He then stated he is not going to be coming for his paperwork.

G4S officers and Immigration Managers warned of his intentions.

Caseworker please be advised that I will be the engagement officer for this detainee during the Pilot for therefore feel free to contact me if assistance required.

\*\*\*\*\*DETENTION MINUTE\*\*\*\*\*

I served detainee with IS151F this afternoon. He signed the Confirmation of Conveyance which I've sent to caseworker by fax. Detainee confirmed he will send a copy to his solicitor.

During the interview, detainee complained about his length of time here, he has been in detention since 2015. He complains that he is not held here lawfully. He complained that his mental state has deteriorated and that he is going to take his own life if released, he told me he is already on ACDT. I informed G4S staff and updated the ACDT form accordingly with what detainee said during the interview.

Part C rec'd from Officer Matthew TURNBULL at The Verne:

Whilst conducting the last roll check of the day [D687] was found on landing 1-20 on C1, this is not his wing. Visually he was unsteady on his feet, unable to walk in a straight line and slurring his words. Staff made the assumption that he was under the influence of an illicit substance. Oscar 1 and 2 informed and the decision to remove him to the CSU was made for his own safety.
