

I spoke to 3 detainees who were waiting in reception. One said he had heard Brook House was better than other IRC's

VISIT CENTRE

Not visited except to attend FORWARD group

3. Meetings Attended

FORWARD (rapt)	8/11/17
----------------	---------

I attended the NPS group. Forward holds groups every Wednesday. They usually require a minimum of 6 to attend but we only had 3. The detainees seemed to find the session useful and were positive about attending. The staff felt they would have better attendance if the meetings could be held in the afternoon but they have been told there are no rooms available.

4. Upcoming Charter Flights

Dates	Destinations
Jamaica charter cancelled	<< Destination or "-" >>

5. Outstanding matters to be addressed

- << Matters or "None" >>

6. Points to be discussed at the next IMB meeting

IMB

- What happens if a detainee needs a wheel chair
- I was asked to look further in to the case of **D643** who suffers from **Sensitive/irrelevant** had a rule 35 assessment. HO looked up his case for me and confirmed he has had 2 rule 35 assessments the outcome of which was that he does suffer **Sensitive/irrelevant** and is an "adult at risk" but that the HO were satisfied that his continued detention was justified because of the risk of harm to the public. This was based on the nature and history of his previous convictions. **D643** has had a letter confirming all this.
- Problems with IT ongoing was the IT printer toner problem sorted and are more web sites being unlocked?

HOME OFFICE

- failed removals because of failure of tascor to turn up e.g. **D4283** A wing failed early release scheme
- Approached by several detainees either informally or through apps who didn't seem to understand what was going on with their case.

G4S

- Unlocking of acceptable websites on the new computers. Do staff know they can ask IT to
