Waiting List Report

Those referrals on the RCU placed on waiting list are not offered a face to face triage until out of isolation. The IMHT do see them as part of a weekly welfare check whilst on RCU. This has had the effect of distorting waiting time stats. DNA's/ clients wanting to rearrange appointments also has an effect on the waiting time figures.

New innovation and good practice:

CPA structure considered and evaluated . Good communication with Psychiatrist regarding updating and reviewing those clients on CPA .  
Reintroduction of the Wellbeing Gym . Liaison with prison gym post covid restrictions.  
Smooth transition of Mental health team to ISMS to create Well being Centre .  
Counselling certificate achieved by staff member.  
Re-developed Wellbeing leaflet  
Linked with education regarding LDD pathways in the prison
