Mr **D3049** would not engage at first, despite numerous requests. Remained under his blanket. Eventually he did sit up. He confirmed that he understood English a little. It was explained why he was in CSU for refusal to share but that he would need to be moved for association. He appeared to understand this and indicated it wouldn't be a problem.

Mr **D3049** appeared very tired and not fully engaged. He said that he hadn't eaten for 7 days. Healthcare asked if he had medical problems, but he didn't reply.

Mr **D3049** confirmed that he knew he had a flight to Poland in 2 days time / Friday.

Overall, very little said by Mr **D3049**, but he appeared to me to understand why he was in CSU and that he would be moving to EWing later.
