

Week Commencing 26th June 2017**Joyce Turner**

I visited the centre on Monday and Friday on Monday I arrived at 12md and left the centre at 20.00hrs ,on Friday it was a much shorter visit 14.00hrs -17.00hrs .

Once again lots of old problems already dealt with in previous months but needs refreshing may be due to new officers joining the work force

On both days the weather was good ,detainees made good use of outside activities after attending various indoors classes ,there was a general relaxed mood around the centre

There was one food refusal detainee whom I visited he told me he is drinking lots of tea and coffee and his reason for not eating is he is trying to take off some weight he looks very well and was able to move around the centre

Lots of active cleaning on both days on all landings ,the eating area was well kept and good attention paid to tables

No IMB OR GENERAL COMPLAINS FORMS ON DISPLAY

Detainees appeared some what lost as to what is going on some told me they were showed around the centre but when questioned said they saw no video , the were given phones that do not work and had no way of reaching family, I heard a officer instructing a detainee who family wanted to send him in some money to tell his family to send in a blank cheque with out his name and it would get in his account just a note saying this is for MR??

Walking in to this wing I came face to face a pile of dirty sheets under the table by the

door entrance it was not only unsightly but also hazards ,the wing in general was very unkempt and this was so on each landing

This wing was fairly quit with only one detainee on constant watch ,on Monday he was not responding to my questions e.g. (how are you to-day) but on Friday he was very talkative saying he wants to go home to his family in Egypt

C S U One detainee at the time of my visit I though he was too distress to try speaking to him but I observed there was some food in his room

CULTURE KITCHEN
being prepared

Is up and running again I saw some good tasty meals
