Said he had signed to return to Somali sis early 2016 after he was told that doing so would have helped him to get his release from prison early. Disappointed and frustrated because he is still waiting for his ticket over 1 year, said maybe it's because he is a muslim why Immigration is treating his this way. Has showed several letters to prove that he has been waiting for a ticket over 1 years. Was encouraged to stay positive and hopeful after he had showed me at letter which states that the Somali government had accepted him, a letter from his solicitor who is in contact with his case worker and him was also shown. [D191] was reassured that some progress has been made and advised to follow the advise of his solicitor.
